Course Description

Students will focus on creative expression, art history, and art appreciation. They will use techniques and media to create art pieces such as drawing, painting, mixed media, textiles, sculpture, and printmaking. They will be introduced to art vocabulary organically, including the Elements of Design (line, shape, color, form, texture, value, and space), as well as the Principles of Design. Students will study several artists (modern, contemporary, and a few from other art periods) while also learning how to critique their own works of art.

To be successful in this class:

The curriculum is based on a **three-year rotation** to accommodate students from grades 6-8 and those taking the course more than once. Students have no need of prior experience or particular talent, but to be willing to try new things and enjoy the process. Participation and effort are the keys to success. Weekly participation grades will be based on effort and improvement during class.
