## Course Description

The Virtual Math Lab for Algebra 1 is a Friday virtual tutoring session for students enrolled in a UHC Algebra 1 course in the current school year. Students will submit homework questions or specific concept questions in advance of the weekly session. The Virtual Math Lab instructor will go over these questions and concepts in the virtual meeting. Weekly attendance is strongly encouraged to achieve the most benefit.

Meetings will be 30-60 minutes long and will depend on how many questions are submitted by students. They will be at the same time every Friday. If no questions are submitted, there will be example problems from the homework that will be demonstrated during the meeting. Notes created by the teacher will be emailed out after each session to all enrolled students.

## To be successful in this class:

Students are expected to make an attempt at their homework assignments prior to attending. Active participation in the session and submitting questions in advance will provide the most success for the student.
