## Course Description

This is math for the eighth-grade student taught as preparation for Algebra 1.

\*A strong 7th grader may take this course upon teacher recommendation and approval of a UHC administrator.

**Note: August homework is assigned and required.**

## To be successful in this class:

Students should be involved in class discussions and practice problems in class. They should use a math notebook to take notes in class and complete [homework](#) each day, with roughly 30-40 problems assigned after each class. Tests will be an average of an hour. This class is fast-paced and requires dedication to daily homework and parent involvement.

**Summer and Christmas Break homework will be assigned and is required.**

**Parents are required to own the solutions guide, review/reteach concepts on non-class days, and check and correct all practice sets.**
