

2025-2026 SCHOOL YEAR

General Science GVL

Monday AND Wednesday

Grades: 7th Grade, 8th Grade

Fees: \$360 (plus \$20 lab fee)

Prerequisites:

This class prepares the student for upper-level science and is our most advanced middle school science course at UHC, and therefore it is best for 8th graders or academically strong 7th graders.

REQUIRED MATERIALS

Textbooks:

- [Exploring Creation with General Science 3rd edition Apologia](#)
- OPTIONAL: Solutions and Test Manual

Other materials:

- 3 ring 1 ½ " Notebook

- 16 tabbed dividers labeled with the first 8 modules (each Module number)
- Notebook paper
- Colored pencils
- Scissors

Course Description

This course is designed to be a student's first systematic introduction to the sciences. It explores broad topics such as the scientific method, designing experiments, simple machines, geology, archeology, biology, and more, with a large focus on Earth Science (astronomy, meteorology, oceanography, earth study, geology, paleontology, and environmental science.) Students are given daily reading assignments and take all tests at home. The student will be required to do the questions in the book and complete lab write-ups. The instructor will teach the concepts in the chapter and give extension work to make sure that the student is comfortable with the material. The class time consists of lectures and lab experiments. The student will have about three hours of homework each week to be completed at home.

****ATTENTION:** *There will be **required** summer homework. It will be assigned in August and will need to be completed by the first day of class.*

To be successful in this class:

Students will need to complete all assignments, including copying in-class notes and submitting detailed lab write-ups. Parents will be asked to help students set aside time during the week to complete reading assignments and coursework, aid students by checking answers to end of the chapter study questions, help them in studying for tests (if needed by student), and proctor tests sent home by co-op instructor. The class covers a great deal of material and is labor-intensive for comprehension. **This class prepares the student for upper level science and is our most advanced middle school science course at UHC, and therefore it is best for 8th graders or academically strong 7th graders.**

Meet Jenny Baldwin

Education: Bachelor's Degree of Science in Elementary Education from Bob Jones University.

Teaching Experience: Has been a substitute teacher from Elementary through High School at public schools from 2003- 2005. Afterwards she became an Summer School History and Math teacher at Berea Middle School.

Homeschool Experience: Began homeschooling her children in 2013.

UHC Courses Taught: General Science

Began teaching at UHC in 2025.
